PREFACE

Prior to this work, the most recent index to the journal of the French-Canadian Genealogical Society of Connecticut, *The Connecticut Maple Leaf*, was published in 2008. That was a subject index to Volumes 1 through 8, covering the years 1983 to 2006, compiled by Albert J. Marceau and Paul R. Keroack. Since that time, more than eleven additional volumes comprising twenty issues of *The Connecticut Maple Leaf* have appeared, warranting the creation of an updated and expanded index.

The present work is a comprehensive listing, cross-indexed by author, subject and title, of articles appearing in the first nineteen volumes of *The Connecticut Maple Leaf* (CML). It includes materials published 1983 - 2021 and is divided into three sections, alphabetically listing authors of articles, the subjects of those articles cross-indexed under relevant headings, and the titles of the articles as they originally appeared in the CML.

The following principles have been followed in composing entries:

- **Book Reviews:** authors of reviews are listed in the Author Index; authors of books are listed in the Subject Index; titles of reviewed books as well as titles of the reviews, if different from the book titles, are listed in the Title Index.
- Only **articles** have been indexed: items such as announcements, membership lists, editorial essays and regular features have not been included.
- **Titles of articles that begin with a number**, such as a year, appear in numerical order at the end of the Title Index.
- Where available, **birth and death dates** are given in articles that focus on individual persons to distinguish them from others of the same name.
- The **abbreviation** “ca.” indicates an approximate date; “bef.” indicates that an event happened before a certain date.
- **Titles are alphabetized by the first significant word**, placing initial words such as “the”, “a”, “le”, and “de” at the end of the title. Example: *Acadian Flag, The*.
- **Surnames** beginning with “de”, “la”, “le” or “de la” are alphabetized as they are spelled.
- **Prefixes** “Saint”, “St.” and “Ste.” are alphabetized exactly as they are spelled
- **Volume and Issue references** in this work are presented in a slightly different format from that of the previous index. Volume numbers have been changed from Roman numerals to more common Arabic numbers. Articles are listed first by volume number, with the issue number in parentheses, followed by the numbers of the pages on which an article appears, using no punctuation or spaces within the references themselves. Multiple references are separated by semicolons. For example, references to articles on the King’s Daughters that were published in several different issues of the CML would appear as:

I am very much indebted to Albert Marceau and Paul Keroack for their work on the previous index to *The Connecticut Maple Leaf*, as well as to Marcella Pasay and others whose groundbreaking efforts produced earlier versions of this guide. Where errors and/or omissions occur, they are mine alone.

I hope that readers of *The Connecticut Maple Leaf* and French-Canadian family history researchers will find this a useful tool, and that it will help to increase accessibility to the many excellent articles that have been published in our journal during the past forty years.
